## OUR EFFORTS WITH ENGINEERS INDIA LTD AND ALL OEMS / CONSULTANTS SUPPLYING AIR COOLED HEAT EXCHANGERS (ACHE)

We coordinated our efforts with Engineers India Ltd and all OEMs / Consultants supplying Air Cooled Heat Exchangers (ACHE) for refineries giving drives with HTD 14mm. Further improvements were offered by having 50% reduced width drives with Gates GT belts. This was a further major improvement by having a trouble free and most energy efficient drive.
